Another dreaded phone message about sewage spills into Lake Wylie.

While our City and State "leaders" are playing catch up with UI/TCWS, the dreaded spills continue. We have been told that we can expect such spills until a solution is found. I see only cat and mouse games and have heard of no solutions. The concentration of effort should be on stopping the spills, whether the City of Tega Cay purchases the water system or not.

Besides, this issue should have been addressed long ago, and the solution would be in place now. Instead, the spills continue with no end in sight.

Shame on everyone responsible for this debacle!

Tom Holmes  
Tega Cay
